One Day Project

CHECK ✓ — you relocate
smart tile
in one day!

No grouting

No bonding

No drying time

Easy-Click

1-Day Project

Do it yourself

Realise dream homes —
in just one day!

Complicated and time-consuming renovations are a thing of the past. With CHECK smart tile, your home can be redesigned in record time. No glue, no grout, no waiting time - the tiles are simply and precisely clicked together and the new floor is ready for immediate use.

Whether living room, kitchen or bathroom - CHECK smart tile makes it easy to redesign any room. No special tools or expertise are required. Each tile blends seamlessly into the next and ensures a high-quality, uniform result that is extremely durable.

No lengthy preparations, no tedious cleaning after grouting and no worries about perfect alignment. Both installation and removal have never been so easy. Thanks to the simple handling, the project is realised stress-free and at the end of the day you are left with a stylish new home.

A new floor covering that is both visually and functionally impressive becomes a reality in just one day. The quick transformation of the living space offers room for creative design ideas.

1. No grouting

The CHECK smart tile completely eliminates the need for time-consuming grouting. The tiles are simply clicked together, allowing for a clean and quick installation.

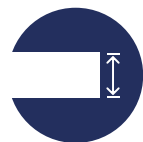

2. No bonding

The Easy-Click system allows the tiles to be installed quickly and easily without the use of adhesive. The tiles are clicked together precisely, making the work clean and uncomplicated.

3. Easy disassembly

Thanks to the Easy-Click system, the tiles can be removed easily and simply without damaging the substrate.

4. Low construction height

The low installation height enables a seamless transition to neighbouring floor coverings. It also makes renovation work easier.

5. Do it yourself

CHECK smart tile can be laid in one day in no time at all - no adhesive required, just click and you're done! Once laid, the tiles can be used immediately and require no additional drying time.

CHECK laying mat for click tiles

The CHECK installation mat is the only accessory required for click tiles. Not only does it provide a stable and even base, but the PET used is made from 100% recycled material. This actively contributes to environmental protection while creating a fresh look in the home. The flooring is laid in conjunction with the installation mat. This is easy to handle and offers excellent protection for the floor - a sustainable solution that perfectly combines functionality and environmental awareness without compromising on quality.
